

7 BEAUTIFUL MARINE CHRONOMETERS FOR YOUR SUPERYACHT

7

CLASSIS BY THOMAS MERCER AND ANDREW WINCH

Who better to know what kind of timepiece a superyacht needs than a superyacht designer? In 2012 leading chronometer maker Thomas Mercer teamed up with Andrew Winch Designs to produce the Classis, a stunning column-esque chronometer inspired by the form of a winch. The dark ebony Macassar body is created in twelve facets, each inscribed with the name of a ship that has played a leading role in maritime discovery, offset by gold surfaces and a sleek, sophisticated mechanism. However, with a limited edition of just ten ever made you might have to bribe a fellow yacht owner to get your hands on one.

Classis by Andrew Winch Designs, POA, Thomas Mercer
