# FOR HIM

*With the making of Skyfall, the 23rd James Bond film to ever be created, comes a collection of secret agent themed gadgetry and skills courses that allow every gentleman to release his inner spy*

## 1. SOLID PENMANSHIP

Graf von Faber-Castell's symbolic Pen of the Year combines precious oak, the symbol of eternity, with gold, the symbol of wealth and fortune. Limited to 1,500 pieces, the exclusive writing instrument is created using a 4,000-year-old technique dating back to the ancient Egyptians and mastered by a select few craftsmen today. Art restorer Ernst D.Feldman handcrafted each pen moulding layers of 24 carat gold leaf to the graining of the oak barrel to reveal a unique pattern.

RRP £3,400

## 2. MISSION POSSIBLE

Part of the enduring appeal of James Bond is said to be that he is the man that women want and men want to be. Now you have the chance to live that dream with Secret Me's invitation-only programme, designed to teach you the skills to become a master of espionage. Created by Special Forces agents the course is designed to give a unique and enjoyable insight into the world of spy craft, covering everything from combat shooting and threat elimination to cyber skills and seduction, taking place in glamorous surroundings around the world. If you prove Bond material, the programme has three phases operating globally with individuals completing each one successfully before being offered the chance to progress to the next phase.

## 3. SAFE JOURNEY

Designed by Andrew Winch Designs, and built in collaboration with Linley, the Classis by Thomas Mercer has been decorated with historical references that celebrate the significance of the chronometer and its part in ensuring safe navigation. Divided by strips of Satinwood into 12 sections, each column of the Macassar Ebony body has the name of a ship made famous by the locations it discovered. The pedestal base has been engraved with the image and name of each ship along with the year of discovery. On the floor of the pedestal are the latitude and longitude coordinates of the significant point reached.

## 4. EN-ARMOURED

For the man who has everything comes the beautifully handcrafted Evade – the first unarmoured SUV by renowned US creators Conquest Vehicles Inc. The ultra sophisticated design is defined by its headlights and taillights which sleekly wrap around its sides. The car is built around the popular Ford F550 Super Duty Chassis and its massive unarmoured skin is made from an aluminium-mild steel blend combining form and function. The luxurious interior cabin space provides more than 400 cubic feet and carefully blends military-inspired design cues with elegant and rich finishes. Touch screen? Tick. Joystick-controlled searchlights. Tick. Night vision cameras. Tick. Retractable flat-screen television. Big tick. Now all you need do is find the right adventure.

RRP £388,500
