Audrey, armchair, Fendi Casa, Design: Chris Bangle
Leather: FOGLIZZO

BRITANNICA 1885 GOLD,
marine chronometer,
Thomas Mercer

IT'S TIME FOR MILAN

In conjunction with the Milano Design Week, **Pisa Orologeria**, international reference for Haute Horlogerie, in collaboration with **Feadship**, world leader in the field of pure custom superyachts, and **Cristina Gherardi Design**, architectural firm based in Paris dedicated to high-end projects for an international clientele, realised an exhibition dedicated to the interiors of the fascinating yachting world, reproducing the magnificent rooms of **Savannah**, the 83.50 metre megayacht built by the Dutch shipyard in 2015. "On the occasion of the Design Week 2017 the offer of interiors is really wide", affirms **Chiara Pisa**, Managing Director of Pisa Orologeria, "therefore we have decided to take the precious occasion to welcome an exhibition dedicated to the yachting where the interior design reaches the maximum refinement and accuracy for the details, the same as into the high watchmaking".

"When **Chris Bangle** meets Audrey" is the name of the project that saw **FENDI Casa (LUXURY LIVING)** cooperating with famous designer Chris Bangle (Chris Bangle Associates) and **FOGLIZZO** fine leather. The result was the creation of a unique piece of art design: the Audrey armchair. All proceeds will go to the **Italian Red Cross** for the victims of the Abruzzo earthquake in 2016.
